

Jigsaw PSHE is a progressive scheme of learning where knowledge and skills build year on year across the programme. The table below shows how the Changing Me Puzzle (unit of work) develops in this year group, including some of the key vocabulary. Schools may adapt content to fit their policy, so please check with your child's school for specific details.

<b>Puzzle overview: Changing Me</b>	
<p>In this Puzzle, children explore self-image and body confidence while learning about physical and emotional changes during puberty for girls and boys. They develop understanding of menstruation, male puberty, and how media influences perceptions of appearance and wellbeing. Pupils practise identifying trusted adults and reliable sources of information, alongside discussing responsibilities linked to growing up. <a href="#">This Puzzle includes non-statutory sex education in Piece 4 (conception and how babies are made)</a>. Schools should check their policy and parental withdrawal arrangements before teaching.</p>
