

Y5 Maths of the Day Activity Card 1.3

Name

Class Date

Activity Title Counting as Romans

Learning objective: Read Roman numerals to 1000 (M).

<p>Things you will need Roman numeral sheet Three sets of 1-9 cards</p>	<p>Helpful hints Your teacher will have a Roman numerals sheet, or they can be found online.</p>	
<p>Activity</p> <ol style="list-style-type: none"> Mix up the cards face down Pick three cards to make 6 three-digit numbers (eg a 3, a 4 and a 7 will make both 347, 374, 437, 473, 734, 743) Jump up and down on the spot for the total of all the ones digits in your six new 3-digit numbers (eg above = 28) Write these down and use the sheet to write the same numbers in Roman numerals Continue until you have run out of cards Show someone what you have done! 	<p>You can challenge yourself by... Listing the numbers in order from smallest to biggest, using normal numbering and Roman numerals</p> <p>Don't forget your jumps every time you create a new number!</p>	
<p>How your teacher will know if you've done this Simply show them your list of regular 3-digit numbers and their Roman numeral equivalents.</p>		
<p>Weekly Health Fact You may have a favourite food, but the best choice is to eat a variety. If you eat different foods, you're more likely to get the nutrients your body needs. Taste new foods and old ones you haven't tried for a while.</p>	<p>Survey Question What new foods have you tried this week?</p>	<p>Daily Fitness Challenge Can you march on the spot for 4 whole minutes without stopping? Put some music on to help pass the time!</p>
