

# What's on this term?

## Scratch Coding Club

We are looking for participants to create a reactive game which encourages children to take care of natural resources and improve the environment. The opportunities are endless and you are in charge of creativity!

## Eco Club

A chance to share ideas, raise awareness and complete activities about making Hawthorn and our community a more environmentally friendly place to be.

## Film Club

Have a chance to enjoy a film while eating lunch.

## Observational Drawing Club

Practise your drawing skills in my lunchtime drawing club. You will need an interest in observing things, you must enjoy drawing and be prepared to just have a go. Each week we will explore a different object and draw it in pencil.

## Choir

Come and join other likeminded children who enjoy singing. No auditions necessary.

## Chatterbooks

Chatterbooks help children develop a lifelong reading habit, because everything changes when we read. Enjoy time listening to books discussing books and choosing books with friends.

## Comic Club

Spend time sharing comics and discussing the content before creating new ones.

## Multi-Skills

A chance to develop fitness, co-ordination and teamwork skills through playing a wide variety of sports and fun games.

## Dance Club

A chance to learn a range of dance steps and movements from different forms of dance, mainly Street, Stage and Lyrical. All with the aim of building confidence and having fun.

# Hawthorn Community Primary School
